			A +	95-100%	Work of exceptional quality Exceptional performance showing comprehensive understanding and application of the subject matter. Evidence of extensive additional reading/research/work.	
			A	80-94%	Work of excellent quality Superior performance showing a comprehensive understanding of the subject matter. Evidence of considerable additional reading/research/work.	
B +	75-79%	Work of very good quality Performance is typified by a very good working knowledge of subject matter. Evidence of a fair amount of reading/ research/work.				
B	70-74%	Work of good quality Above average performance, with a working knowledge of subject matter. Evidence of some reading/research/work.				
MALTA	MT MALTA01	University of Malta	C +	65-69%	Work of average quality Considerable but incomplete understanding of the subject matter. Evidence of little reading/research/work.	
			C	55-64%	Work of fair quality Basic understanding of the subject matter. No evidence of additional reading/research/work.	
			D +	50-54%	Work of rather low quality Minimal understanding of the subject matter, with no evidence of additional readina/research/work.	
			D	45-49%	Marginal Pass Marginal performance, barely sufficient preparation for subsequent courses in the same area.	
			P	not applicable	Pass - when assessment is based on a Pass/Fail basis only for study-units that are used for establishing eligibility to progress or for the award but are not taken in consideration for calculating the student's progress and for award classification purposes.	
			F	0-44%	Unsatisfactory, failing work in any study-unit.	
			F	0	Unjustified absence for an assessment, or failure to hand in assigned work on time, or ineligibility to take assessment due to unapproved absence from lectures.

			Pass – Fail	This grading scale is used at most faculties, however, primarily for courses that are part of contract educations and courses of practical/aesthetic nature.		
			Pass with Distinction – Pass – Fail	The traditional grading scale at Swedish universities. This grading scale is mainly used at the Faculty of Social Sciences, the Faculty of Arts and Humanities, and the Faculty of Health and Life Sciences.		
			Five – Four – Three – Fail	Used for most courses and programmes offered at the Faculty of Technology. This grading scale is in use at most engineering faculties in Sweden.		
		Linnaeus University				

SZWECJA	S VAXJ003	/Four different grading scales are used at Linnaeus University. Which of the grading scales that is to be used is decided by the faculty responsible for each respective course. A list of a student's completed courses may, therefore, contain a number of different grading scales./	A-B-C-D-E-F (Fail)		Introduced in 2016 for all courses offered to international students. The school of business and economics uses this grading scale for the vast majority of its courses. The A-F-grading scale assesses students with the grades A, B, C, D, E, Fx or F. In order to pass the course, students need to meet the expected learning outcomes, which are stated in respective course syllabus. The grade A constitutes the highest grade on the scale and the remaining grades follow in descending order where the grade E is the lowest grade on the scale that will result in a pass. The grade F means that the students' performance is assessed as failed. Fx is not a grade and is only used when a student is allowed to complement the examination. For students who do not pass the examination, retake examinations are provided in accordance with local regulations at Linnaeus University.
